

3 November 1983
MLD-3046

MEMORANDUM FOR: Director, FBIS

FROM: Chief, London Bureau

THROUGH: Chief, Operations Group

SUBJECT: Monthly Report--London Bureau--October 1983

I. GENERAL

1. Monitoring Service tradition was shattered on 19-20 October when the Listening Room was shut down--not by union action, fire, or other disaster, but for de-asbestosization. The removal of asbestos from the basement ceiling under the Listening Room made closure necessary. Detailed preparations for the evacuation included dispersal of monitors to all available cubicles and the establishment of a temporary operations center in the "Casbah Room" on the ground floor (named for the displaced Arabs who occupied the room after the 1964 evacuation of Medburo). Coverage proceeded without a hitch.
2. The Listening Room closedown was a foretaste of the upheaval to come as the Monitoring Service embarks on major modernization, provided that funding is approved. Parliamentary consideration of the program is under way and a decision may be announced within the next month. In preparation, personnel got the first look at the shape of the future on 28 October, when a model of the old and new buildings and architectural drawings went on display in the main hall.

According to the plans, major construction will take place in the area now occupied by PMU quarters, the Science Block of engineering offices, the BBC Club, and buildings housing various ancillary functions. The large building that would fill this area would house the News Bureau, the Listening Room, the RTT room, and associated technical support.

If Parliament approves funding, PMU will be the first to move as construction of the new Listening Room and News Bureau will have first priority. Temporary PMU housing would probably be in Portakabins outside the canteen.

PMU eventually will be physically integrated with the rest of London Bureau for the first time when FBIS acquires the entire top floor, gaining considerably more space than it has at present. ✓

3. At mid-month there was concern that union strikes against British Telecom, including "industrial action" involving earth satellite tracking stations in the U.K., might shut down communications with East Africa Unit in Nairobi. Arrangements were made for EAU to telex priority and above traffic to Swaziland Bureau for relay to the BBC. The backstop route has not been necessary, but further union action is anticipated in protest against scheduled privatization of BT in October 1984.

II. OPERATIONS

2. Communications:

- A. London has been protecting Nicosia Bureau's incoming and outgoing traffic since Nicosia's communications breakdown on the 28th, passing 856 messages by the end of the month.
- B. The system inaugurated in August, whereby BBC prints its own incoming FBIS traffic, has been working flawlessly since mid-October when News Bureau began using two printers simultaneously. ✓
